June 1, 2025

To: All Logistics Customers

Please be advised that due to the incoming tariffs, it has become necessary to increase pricing on our TruForce and Power Rite products. Increases range from 20 to 30%.

We understand that any change in pricing can have an impact on your business. We will continue to work hard to manage the incoming tariffs and provide you with the most competitive programs available.

We thank you for your continued support and your understanding of this necessary action. We look forward to partnering with you in navigating through these inflationary times.

Best regards,

Donna C. Bruno
President
Logistics Supply
