

## DISPOSABLE DRY CHEMICAL FIRE EXTINGUISHERS

Lightweight and easy to use, these disposable extinguishers are the perfect answer for areas that need supplemental protection. Their seamless aluminum cylinders have no welds, so they won't leak either.

## MARINE EXTINGUISHERS

The United States Coast Guard requires Coast Guard hand-portable fire extinguishers with a UL Class B rating and a marine-type mounting bracket for motorboats using flammable fuels. It is recommended that extinguishers be mounted in a readily accessible position, away from the flammable areas such as a galley or engine compartment. When selecting a fire extinguisher for marine use, make sure that the bracket used is the one shown on the extinguisher label.

### REQUIRED PORTABLE FIRE EXTINGUISHERS (motorboats without a fixed fire extinguishing system)

Length of Boat	Minimum Number of 5-B Rated Fire Extinguishers
Under 26 Feet	1
26 and over, but under 40 feet	2*
40 and over, but not over 65 feet	3*
